

# INDEX

VOLUME 21, Nos. 1-12 (SEPTEMBER, 1970-AUGUST, 1971)

A	PAGE	PAGE
Abstracts, 6, 8, 12, 20, 42, 48, 57, 67, 83, 86, 99, 102, 106, 108, 117, 124, 128, 136, 148, 164, 168, 180, 184, 186, 204, 220, 225, 232, 237, 238, 257, 260, 266, 275, 284, 289, 293, 300, 306, 308, 311, 320, 340, 346, 352, 376, 384, 388, 394, 400, 416, 422, 432, 435, 448		
ADATIA, A. K.: Odontogenesis following re-plantation of erupted maxillary central incisor - - -	153	
Adhesives, denture, review of their uses and compositions - - -	17	
Alginate materials, assessment of - - -	377	
Anaesthesia, dental, and sedation, cardiovascular changes during - - -	89	
Angle Class II, division I malocclusion, severe, treatment of - - -	437	
Apples, effect on dental plaque of chewing - - -	194	
Appliance(s), Fränkel F.R.I., clinical management of - - -	205	
— removable, broken, analysis of - - -	449	
Arch, dental, crowding of in four age-groups - - -	9	
ATKINSON, KATHLEEN: See MURRAY, J., jt. auth.		
<b>B</b>		
BARBENEL, L. M. H.: See MCKENDRICK, A. J. W., jt. auth.		
BASS, T. P., and STEPHENS, C. D.: Some experiments with orthodontic springs - - -	21	
BHATIA, S. N.: A longitudinal study of the SN-mandibular-, Frankfurt-mandibular-, and maxillary-mandibular-plane angles - - -	285	
Bite, anterior open, and deep overbite, dento-alveolar factors in - - -	53	
Bone, eosinophilic granuloma of - - -	87	
Book Reviews (see Reviews)		
Bracket, interchangeable plastic - - -	373	
Bridges, repair and removal of - - -	341	
British Society for the Study of Orthodontics, Transactions of: A analysis of broken removable appliances, 449; Autogenous transplantation of unerupted maxillary canines: A clinical and histological investigation over five years, 251; Automated measurements of photographs and radiographs, 100; The clinical management of the Fränkel appliance, F.R.I., 205; Comparisons of craniofacial features in monozygous and dizygous triplets, 103; A comprehensive treatment of severe Class II, division I malocclusion, 437; The correction of canine and premolar rotations, 294; The efficacy of dental welding machines, 169; The interchangeable plastic bracket, 373; An investigation into the prevalence of molar crossbite and some associated aetiological conditions, 402; A longitudinal study of the SN-mandibular-, Frankfurt-mandibular-, and maxillary-mandibular-plane angles, 285; A method of treating total lingual occlusion, 107; Methods available to improve the surface hardness and appearance of study models, 131; Mucous membrane and delayed eruption, 241; The orthodontic problems in Burma, 181; A preliminary report on the severing of gingival fibres following rotation of teeth, 101; A preliminary survey into the association of the Frankfurt-mandibular-plane angle with interdental 'S' and incisor relationship, 258; Rapid maxillary expansion as an integral part of orthodontic treatment, 63; Recent trends in the early treatment of cleft lip and palate, 326; The recognition of bilateral craniofacial deformities, 131; Report on the occlusions and dentitions of a group of skulls excavated at a Cairn cemetery, in Fife, 68; Some experiments with orthodontic springs, 21; Space closure following loss of lower first premolars, 411; Speech and intelligence in adult cleft-palate patients, 290; A study of the buccal forces exerted upon teeth during finger-sucking, 95; The value of prophecy in orthodontics, 359; Variation in the expression of hypodontia in monozygotic twins, 212.		

	PAGE		PAGE
<b>British Society of Periodontology:</b> Cardiovascular changes during dental anaesthesia and sedation, 89; Effect on dental plaque of chewing apples, 194; Gingival exudate—an index of gingivitis?, 261; Oral hygiene activity in a selected dental population, 312; Periodontal surgery under intravenous sedation, 309; Periodontology in the National Health Service in Scotland, 233; A practitioner's view of periodontal treatment in general practice in Scotland, 355.		COOKSON, A.: Space closure following loss of lower first premolars -	411
<b>British Society for the Study of Prosthetic Dentistry:</b> Aids to the insertion of endosseous implants, 389; Health in old age, 349; A preliminary report on studies of mandibular movements in speech, 429; The relationship of denture complaints and level of neuroticism, 156; A study of the morphology of the denture space, 109.		CRABB, J. J., and CRABB, V. P.: Reimplantation of a primary central incisor: a case report -	353
BROWN, P. R. H., GRAY, I. G., and MAIN, D. M. G.: Intravenous sedation in dentistry: a comparative study of diazepam and pentazocine -	2	CRABB, V. P.: See CRABB, J. J., jt. auth.	
BRUNELLO, D. L.: See NAIRN, R. I., jt. auth.		Craniofacial deformities, bilateral, recognition of -	131
Buccal forces exerted upon teeth during finger-sucking -	95	— features, comparisons of in monozygous and dizygous triplets -	103
Burma, orthodontic problems in -	181	Crossbite, molar, and some associated aetiological conditions, an investigation into prevalence of -	402
		Curettage, subgingival and gingivectomy, eugenol or non-eugenol dressings after -	49
		<b>D</b>	
		DAM, rubber, a modern approach to use of -	267
		DAY, A. J. W., and FOSTER, T. D.: An investigation into the prevalence of molar crossbite and some associated aetiological conditions -	402
		DAVIES, M. H.: See ECCLES, J. D., jt. auth.	
		Deciduous teeth, comparison of, between caucasoid, negroid, and mongoloid population samples -	121
		— non vital, treatment of in general practice -	150
		Deformities, bilateral craniofacial, recognition of -	131
		Dental anaesthesia and sedation, cardiovascular changes during -	89
		— arch crowding in four age-groups -	9
		— plaque, effect on of chewing apples -	194
		— varnishes, physical properties of -	197
		— welding machines, efficacy of -	169
		Dentine papillae, retained, continued growth of -	7
		Dentis, gubernaculum -	423
		Dentistry, conservative, a study of operating positions in -	221
		— intravenous sedation in, a comparative study of diazepam and pentazocine -	2
		Dentitions and occlusions, of a group of skulls excavated at a Cairn cemetery in Fife, report on -	68
		Dento-alveolar factors in anterior open bite and deep overbite -	53
		Denture(s) adhesives, review of their uses and compositions -	17
		— complaints and level of neuroticism, relationship of -	156
		— full, which occlude with natural teeth -	37
		— space, morphology of -	109
		Diazepam and pentazocine, a comparative study of in dentistry -	2
		DI BIASE, D. D.: Mucous membrane and delayed eruption -	241
		Disease, Hand-Schüller-Christian -	13
		— periodontal, occlusal trauma and development of -	125
		Disimpaction using a pin as a method of attachment -	53
		Dizygous and monozygous triplets, comparisons of craniofacial features in -	103
		DONALDSON, D.: See JEFFREY, I. W. M., jt. auth.	
		Dressings, eugenol or non-eugenol, after gingivectomy and subgingival curettage -	49
<b>C</b>			
CAMPBELL-WILSON, M.: Report on the occlusions and dentitions of a group of skulls excavated at a Cairn cemetery in Fife -	68		
Canine(s) and premolar rotations, correction of — unerupted maxillary, autogenous transplantation of -	294
